

Innotec Essential Temperature Screener With Auto Dispensing Hand Sanitizer

Product Overview

Innotec Essential Temperature Screener is an "All-in-One" health safety terminal that provides a total protection suite in the form of a high-precision Temperature Sensor, Automatic dispensing hand sanitizer and a Touch Screen Display, featuring a high precision infrared human temperature sensor with a variance of less than +/- 0.3 degree Celsius.

Innotec Essential Temperature Screener is recommended to be positioned at key entry points like guard house, office lobby, shopping mall and any venue with human activity. Users will be able to self-administer their own temperature checks by presenting their wrist or forehead to the contactless Temperature Sensor. An integrated Automatic Hand Sanitizer Dispenser provides users a contactless means of sanitization before entering the premises.

Leasing at \$15/day!

Features

- Innotec Essential Temperature Screening With Auto Sensing Hand Sanitizer
- Solution comes in a full ready to use setup
- High Speed Temperature Screening @ 65 people per minute
- Accuracy up to +/- 0.3 Degree
- Innotec Essential Temperature Screening With Auto Sensing Hand Sanitizer
- Solution can be deployed as a man-less operation
- Contactless based temperature screening
- Display screen indicates statistics on normal and abnormal temperature count
- Non-contact temperature detection via wrist / forehead
- Non-contact auto dispensing hand sanitizer
- Humanized Voice alert alarm on temperature screening status
- Configurable Temperature detection threshold value
- Real time display of temperature reading
- Zero calibration required
- Zero computer or additional hardware required

Specifications

- Measurement traffic flow rate of 65 people per minute
- Measurement range is between -20 to 45 degree Celsius
- Measurement detection range within 5cm from temperature sensor
- Measurement Position : Wrist or Forehead
- Temperature accuracy of +/- 0.3 Degree Celsius (within 10cm range of sensor)
- Contactless based infrared temperature sensor
- Automatic self-dispensing hand sanitizer
- 7" Touch Screen for setup configuration
- Temperature Sensor height from ground : 110CM
- SPCC Material
- Working Voltage : 240AC, 50~60 Hz
- Recommended to be used indoor or outdoor under shelter with no direct sunlight
- Product dimension : 410 (L) x 1600 (H) x 290 (W) mm
- Weight : 25KG

Package Includes

- 1 x Temperature Screening Sensor
- 1 x Temperature Screening Stand
- 1 x Auto Sensing Hand Sanitizer Dispenser
- 1 x Installation / Setup / Training
- 1 x Spick Sanitizer Chemical (www.spick.sg)
- Next Business Day Technical Support
